

**i – SECURITY DISTRIBUTOR
SINGAPORE • MALAYSIA • THAILAND • VIETNAM • CHINA • INDONESIA**

M-Security Technology Indochina Pte Ltd ("M.Tech Vietnam") is part of the M.Tech group of companies, the leading regional IT security solutions distributor in South East Asia. Established in May 2002, M.Tech is headquartered in Singapore and, in addition to its presence in Singapore, has regional offices in the fast growing markets of Vietnam, Malaysia, Thailand, China, Indonesia, Philippines and Hong Kong to provide on-site sales and technical support to Partners.

M.Tech aims to be the market leader in the distribution of Internet Security Services and Solutions in Asia and the preferred best-of-breed internet security solution provider, partnering only with the leading names in their respective domains. Its current product portfolio encompasses best-of-breed inter-operable solutions from Nokia, Check Point, RSA Security, Tripwire, Allot, Foundry, Bluesocket, SurfControl, TippingPoint, PGP, PatchLink, NetApp, Sophos, nCipher, Blue Coat, nCircle, Novell and Riverbed. This specially selected suite of solutions covers every major aspect of information and network security needs of today. M.Tech is also an authorised training centre for Nokia, Check Point and RSA Security.

M.Tech Vietnam was incorporated in Feb 2003 and commenced as a distributor of Nokia products. It currently has offices in both Hanoi and Ho Chi Minh City where it provides value-added services to resellers in Vietnam.

The M.Tech companies are part of SGX-listed Multi-Chem Group, with market capitalisation of approximately US\$53 million as at 31 March 2006. Multi-Chem is mainly engaged in the electronics manufacturing and distribution business. It has a staff strength of more than 700 with business interests spanning South East Asia and China.
