Oracle's business is information - how to manage it, use it, share it, protect it. For nearly three decades, Oracle, the world's largest enterprise software company, has provided the software and services that let organizations get the most up-to-date and accurate information from their business systems. Many Oracle customers around the world have improved their ability to use information and IT as strategic assets and are now able to share data and processes, measure results for continuous improvement, align stakeholders, and communicate a single truth to all their constituents.

Leading Vietnam businesses from large to small-and-medium who seek to harness the Internet select Oracle's leading edge platform technologies and business applications to meet their needs.
