About PineApp

PineApp™, a leader in securing networks and email systems, offers comprehensive appliance solutions for small, medium and large organizations.

Since its founding in 2002, PineApp has specialized in email and content security systems and already has significant presence in more than 50 countries worldwide.

PineApp has established itself as a pioneer in the development of unique and innovative technologies to fight the different threats that exploit email systems. As a result, PineApp has become a leading supplier of comprehensive appliance based security solutions for email systems, suitable for organisations of all sizes from small offices to large enterprises.

Our Vision

Empowering your business through state-of-the-art security appliances.

Our Mission

To be the leader in protecting networks and email systems, supplying our customers with premium quality appliances and software solutions.

PineApp's Core Values

Achieving our vision and mission require an inherent set of core values and business principles. These values influence and define the way we work.

PineApp's core values are innovation, integrity, dedication to excellence, respect and empowerment to our workers and most importantly - outstanding service for our customers.

PineApp offers comprehensive appliance and software solutions for small, medium and large organizations:

Mail-SeCure – PineApp's mail security and management award-winning solution (including PineApp's Mail Encryption Solution).

SeCure SoHo – PineApp's All-in-one networking solution for small and home-office networks.

Archive-SeCure – PineApp's new email archiving comprehensive solution.

Surf-SeCure – PineApp's Real-Time Web & Application filtering, monitoring and control solution.

PALI – PineApp Lawful Interception solution for security agencies and intelligence services.
